ABOUT ME

With a passion for continuous growth and learning, I am determined to make a positive impact in the tech industry. My goal is to thrive in the ever-evolving field by embracing new challenges and opportunities to expand my knowledge. I specialize in the MERN stack and have hands-on experience building responsive web applications using React.js, Node.js, and MongoDB. Through internships and academic projects, I've developed practical skills in front-end design and backend integration.
